Brand, GTM & Operations Leadership • Design Systems & Front-End Development • Content & Communications Strategy

Brand, GTM and operations leader who also designs and builds the visual, written and technical systems that make growth and execution repeatable. A decade spent founding and scaling early-stage GTM, brand and content operations for founders, startups and small businesses pairs with hands-on front-end development in React, TypeScript and Git-based workflows, and a track record partnering directly with engineering and product teams through a funded startup launch. Equally comfortable setting a GTM playbook, designing the brand system behind it, or writing the code that ships it.

EXPERIENCE

Founder & GTM Consultant / Brand Designer **Levity Ltd.** *Jan 2023 – Present • San Francisco, CA*

- Built GTM and operational systems for early-stage founders, designing playbooks and automated workflows that improved outreach efficiency by 66% and cut manual coordination by 35%.
- Directed cross-functional execution across design, engineering and sales on 20+ projects, moving founders from concept to GTM-ready faster and with fewer handoffs.
- Built brand and visual systems, typography, color, voice and documentation, for 10+ small businesses and creative founders, creating foundations other people could apply consistently without her in the room.
- Designs and ships experiential websites and web apps in code, interactive, motion-rich builds rather than static mockups, using an AI-augmented delivery stack (GitHub for version control and handoff, Codex for code scaffolding and review).
- Writes and optimizes client newsletters consistently achieving 75%+ open rates through improved positioning and audience segmentation.
- Led narrative and content strategy driving 14M+ combined views, including a placement on The Joe Rogan Experience.

Marketing & Content Operations Lead **Live.Laugh.Colorado.** *Sep 2024 – Dec 2025 • Denver, CO*

- Standardized GTM and content processes for a real estate group, enabling consistent brand execution and measurable ROI across a $100M+ annual revenue pipeline.
- Led cross-functional initiatives connecting design, content and operations, improving campaign delivery speed by 100%.
- Built Asana-based operational systems to streamline listing workflows, reducing turnaround time by 66% across teams in three markets.
- Overhauled digital listing content and distribution, increasing engagement by 30% and strengthening referral pipelines.
- Wrote and optimized newsletters consistently achieving 75%+ open rates through improved positioning and targeting.

Head of Communications **Primitive** *Mar 2022 – Dec 2022 • Remote*

- Shaped GTM storytelling and external communications for a Web3/DeFi product through a $9M seed raise, increasing media visibility by 100% through targeted outreach and narrative positioning.
- Coordinated launch operations across product, engineering and PR teams, contributing to a $1.7M TVL launch.
- Partnered directly with engineers and founders, translating complex blockchain mechanics into investor-ready decks, scripts and documentation.
- Edited white papers, technical documentation and product content for accuracy, clarity and narrative cohesion.

Content & Product Ops Coordinator **Learning Advantage, Inc.** *2019 – 2021 • Fort Collins, CO*

- Built workflow automations integrating photography, editing and publishing pipelines, lifting operational efficiency 78% and cutting manual filing time 90% through automated asset-sorting scripts.
- Established a new digital asset management system, folder taxonomy, naming conventions, version control, to promote consistency and accessibility across departments.

- Partnered with sales and design teams to streamline product rollout workflows and keep content production on schedule.

SELECTED PROJECTS

Self-initiated front-end builds, GitHub: github.com/melissalynnel

- Personal Dashboard: single-page web app with both a raw-list and a visual view of the same underlying data, an exercise in building one flexible model that renders more than one way.
- Unrelatable: built the front end for an AI-powered lead-generation tool, collaborating directly with a backend developer on the AI integration.
- Colorado Comedy (colorado-comedy.com): designed and built a free event-discovery platform listing comedy shows across Colorado, built and maintained solo.
- Silverfox, ADHD Simulator, Honey Bee: additional self-initiated web apps exploring reflection, storytelling and accessibility-minded design.

EDUCATION

Colorado State University • Fort Collins, CO

B.A. in Journalism & Media Communications • B.S. in Psychology, 2018

- Completed CSU's Venture Accelerator and Venture Validator programs, focused on customer discovery and early GTM validation.
- Editor, Rocky Mountain Collegian and CSU Student Media: coordinated multi-writer coverage and enforced AP Style while owning budget, hiring and production on a fixed publication schedule.

CERTIFICATIONS

Notion Certified Admin • 2026

Notion Academy: Essentials, Workflows, Advanced • 2025

Hootsuite Analytics Certification • 2018

SKILLS

Design & Brand: Figma • Adobe Creative Suite • Brand & Visual Systems • Typography & Color Systems • Brand Guideline Documentation

Front-End & Dev Collaboration: HTML/CSS/JavaScript • TypeScript • React • Vite • Git & GitHub • AI-assisted engineering tools (Claude, Codex)

GTM & Operations: GTM Strategy & Playbooks • Process Design & Automation • Asana • Notion (Certified Admin) • Budget & Vendor Management • Cross-Functional Leadership

Content & Communications: Copywriting & Editing (AP Style) • Newsletter Strategy • Investor & Technical Documentation • Paid & Organic Social

COMMUNITY & VOLUNTEER

San Francisco Muslim Community Center: Volunteer. **GLIDE Memorial Church**: Volunteer, meal program for the unhoused.
